

### Junction Box with Lightning Suppression

#### Features

- Using three parallel suppression devices, the lightning suppression junction box will dissipate a 5,000 Watt pulse for a 10 micro second period.
- 40 VDC Operating voltage.
- Explosion Proof Rating.
- Water Proof

#### Application

DataCan's Junction Box with Lightning Suppression helps protect your electronics for lightning strikes and other electrical surges.

| Lightning Suppression Junction Box |  |
|------------------------------------|--|
| Part Number                        | 106400                                   |
| Wellhead Lightning Suppression     | 5000W Triple Suppression 10/1000 $\mu$ s |
| Connections                        | 1/2" NPT & 14 AWG TECK                   |
| Dimensions                         | 7.2" x 4.6" x 2.9"                       |
