

### Slickline Measuring Head

#### Features

- Compact, Lightweight Device
- Mount to Overhead Spooling Arm or Vertical Spooler
- Straight-Thru Design Reduces Wireline Bend, Fatigue and Wear
- Measure 0.072 in. to 0.160 in. Slickline
- Supports One Digital Encoder and a Mechanical Drive
- Available in Metric or Imperial Configurations
- Side Loading

#### Application

The Slickline Measuring Head is a compact, durable device used to measure depth and speed. The unit mounts to an overhead spooling arm or track. The straight-through design reduces wireline bending, fatigue and wear. The unit supports a digital encoder and mechanical odometer, and is available in Metric or Imperial configurations. The simple side loading, lightweight design makes for effortless installation and maintenance.

#### Benefits

The Slickline Measuring Head is industry proven with recognized accuracy; more accurate than wraparound counters.

#### Specifications
