

Features

-  Drop Test Proven
-  Replaces Mechanical Clocks
-  Unlimited Trigger Time
-  Multiple Cycle Capability
-  USB Communication

The new high temperature clock, which operates to 177°C is now available.

DataCan has also introduced a new high torque clock assembly, which delivers twice the amount of torque to the valve shaft.

Digital Clock		
Temperature Rating	Torque	Part No.
150°C	High Speed	102364
	High Torque	103541
177°C NEW	High Speed	103540
	High Torque	103542

Accessory Type	Part No.
Battery Pack_2 x "C"_Amphenol Connector_150°C	102376
Battery Pack_2 x "C"_Amphenol Connector_165°C	103543
Battery Pack_2 x "C"_Amphenol Connector_180°C	103544
USB Communication Cable	101007
12V AC/DC Power Supply	101487

Specifications	
Max Drive Torque	200 oz-in (1,500mN-m)
Records	Time, Motor Current, Temperature
Capacity	1 Million Samples
Communication Method	USB
