

Wellhead

Pressure

Application

The Wellhead Pressure System provides an electronic reading for pressure at the wellhead. These readings assist with leak detection and are calibrated for use with the LineWise system.

Benefits

The Wellhead Pressure System has an intrinsically safe and rugged design for the monitoring of wellhead pressure. There is a dual sensor version that allows the customer to measure both casing and tubing pressure.

Features

- Available in Different Pressure Ratings
- Monitors Casing and/or Tubing Pressure at Wellhead
- Works with DataCan LineWise
- Rugged Case for Pressure Transducer
- Class 1, Div 1 Intrinsic Safety rated with Barrier
- Hardwired Connection to Transducer at Wellhead
- 150 feet of cable provided with cable reel
- Longer cable options available

Wellhead Pressure

Type	Part No.
10K Pressure Transducer	AE302UU0002-10
15K Pressure Transducer	AE302UU0015-15
10K Wellhead Assembly (with Transducer, Cord reel, Barriers, Cables)	AE304UU0051-10
15K Wellhead Assembly (with Transducer, Cord reel, Barriers, Cables)	AE304UU0051-15

Accessories

Type	Part No.
Reel	PM735UU0248
Cord	AE304UU0036-150

Specifications

	Details	
	10k model	15k model
OD (collapsed)	1.375 in (34.9 mm)	1.5 in (3.8 cm)
Length	7.5 in (19 cm)	10.6 in (27 cm)
Weight	1.63 lbs (0.74 kg)(Transducer only)	3 lbs (1.38 kg)(Transducer only)
Pressure Rating	10,000 psi (68.9 MPa)	15,000 psi (103.5 MPa)
