1.375" Telemetry

Application

The Telemetry Tool provides real-time data from within a wellbore to a surface acquisition system. The telemetry can multiplex up to 16 digital channels of data allowing for use on a single conductor electric line. Included on the telemetry are a casing collar locator (CCL) and a gamma-ray detector.

Features

- Multiplex up to 16 digital channels
- Casing collar locator (CCL)
- Gamma-ray detector

Telemetry

Type	Part No.
Standard Service	AM003WA0001
H2S Service	AM003WB0001

Spare Parts

Accessory Type	Part No.
Spring Pin (x 6)	SP1/16SB050
Seal Kit	AM003RK0001

Specifications

	Value
OD	1.375" (34.9 mm)
Length	59.6" (151 cm)
Weight	14.2 lb (6.4 kg)
Temperature Rating	350°F (177°C)
Pressure Rating	15,000 psi (103.5 MPa)
Normal Current Draw	~25-35 mA
Normal Current	~100-110 VDC
Sampling Rate	25 samples/sec
