

# Data2Desk

## Application

DataCan's Data2Desk system is used for permanent monitoring, diagnostic injection frac monitoring and off-set well monitoring. It allows the user to view well data in real time, from any location, using a secure web server.

## Benefits

The Data2Desk system is cost-effective and convenient as it saves the cost of having personnel drive out to the site to check the well status. It also allows users to view current and historical data, observe data trends, set alarms, and change data sampling rates, all from a secure web server.

## Features

- 8 Surface gauge (Quartz or Piezo) connections available
- 24 Hours a day, 7 Days a week Remote Monitoring
- 20 Million sample capacity.
- Cloud data storage on a secure Web Server - [www.data2desk.com](http://www.data2desk.com)
- Data over cellular with optional satellite backup
- Optional custom subdomain - [your\\_company\\_name.data2desk.com](http://your_company_name.data2desk.com)
