

SERO

Hanger Feedthru

Application

The Hanger Feedthru Connector is installed at the tubing hanger and provides a pressure seal while allowing the downhole cable to pass through and exit the wellbore.

Benefits

The Hanger Feethru Connector is quick and easy to install while being reliable and very cost effective.

Features

- Excellent Gas-Tight Sealing and Tube-Gripping Action
- Easily Achieved Proper Installation
- Consistent Remakes
- Excellent Vibration Fatigue Resistance and Tube Support
- Full Compatibility with Original Swagelok Stainless Steel Tube Fittings of Identical Sizes

Hanger Feedthru
